

# About Puretone Music

Puretone Music take hearing very seriously. Since 1976 we have been manufacturing custom-made earpieces and other in-ear devices that enhance and protect your hearing.

Our skilled team of professionals are experts at creating a custom-made earpiece that is right for you, whether you are a serious musician, club DJ, gig goer or dedicated music listener.

Whatever your music or noise protection needs, Puretone Music can manufacture and supply the right product for you.

We custom manufacture a wide range of in-ear monitor earpieces and noise protection here at our factory in Rochester, Kent, ensuring that every earpiece is personally crafted with the upmost care for the user. We are also the official distributor for Elacin earplugs in the UK, allowing us to supply custom-made filtered earplugs that are ideal for all musicians, DJs and music lovers.

# Micro Monitor Classic

Micro Monitor Classic by Puretone Music offer exceptional sound quality, response and reliability, with the fit and comfort that only custom-made earpieces can provide.

They not only allow you to hear with amazing clarity and crispness, they can also help protect your valuable hearing.

Available in 19 colours including glitter and transparent finishes

## Micro Monitor Classic 1

Professional personal listening and mix monitoring earpieces

- Incredible performance, fit and wearing comfort
- Amazing sound quality from a single driver
- Effective reduction of ambient noise

## Micro Monitor Classic 2

Dual balanced driver monitors for excellent sound quality

- Increased range, clarity and depth of sound
- A great balance of performance and price
- Effective reduction of ambient noise

## Micro Monitor Classic 3

Triple balanced driver monitors as used by many professional musicians

- Rich sound reproduction with unparalleled depth of sound
- Clear and defined across all frequencies
- Effective reduction of ambient noise

# Sculptured

Cosmetic Finish

The flush fitting, smooth finish is available in 11 different skin tones, allowing you to closely match your individual skin tone, for the most discreet and natural fit in your ear.

# Micro Monitor Flex

Every Micro Monitor Flex is custom manufactured from soft flexible silicone material, to give excellent comfort over long durations while still giving excellent on-stage noise reduction.

Micro Monitor Flex feature a fixed cable with 3.5mm jack plug. Ideal for any musicians that wants an ultra comfortable monitor experience on stage.

Available in 19 colours including glitter and transparent finishes

# Clients - Steps

Puretone Music are proud to provide Micro Monitor Classic 3s to support Steps on their 'Steps Ultimate Tour' in 2012!

Formed in 1997, Steps were the pop sensation of the millennium. In total the five-piece has sold 20 million records, and achieved 14 consecutive top 5 singles. They have won countless awards and had sell out tour after sell out tour all over the globe. They were the second most successful British pop group ever!

“Puretone Music in-ear monitors helped me to fully focus on the musical dynamics of our Ultimate tour, providing clear quality of sound and in-ear comfort every night.”- Lee from Steps.

# Clients

## DJ Steven Cooper, 98FM DJ

“I love my monitors they are unreal to use and the difference they made the next morning! I had no ringing in my ears! Mixing with them took a little while, but they work a treat! The sound is amazing and I’m trying to encourage more DJs to convert! A big thank you to Paul Hussey of Hearing Healthcare Ireland for taking the impressions and fitting the monitors.”

## Philip James, The Craze

“Last night was our live broadcast which was an amazing experience! We played to over 100,000 people across the world and the monitors did us proud. The MMC3’s are the most responsive and comfortable monitors I have used to date. With almost perfect isolation I can get the mix I need in loud live situations or in the studio. Fantastic! I think you can’t beat them.”

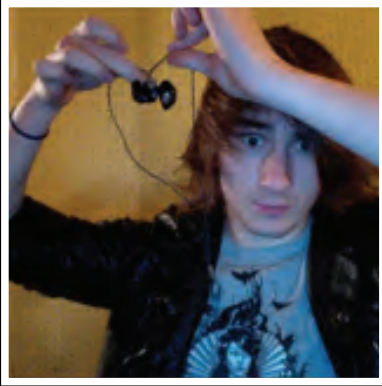

## Roger O'Donnell, The Cure

“When I was asked to perform at the Sydney Opera House with The Cure this year I knew I needed the best monitors available! Puretone’s Micro Monitor Classic 3s provided me with a level of clarity and quality that I had not heard before in over 15 years of using “in ears”. They have taken it to a new level.”

# Clients

**Austin Dickinson, Rise To Remain**

“Puretone are the only in-ear monitors I can use night after night, and I still get surprised by them. Cracking stuff.”

**Justin Quinn - Guitarist & Composer**

“Puretone Micro Monitors delivery a fantastic level of clarity across the audio spectrum without the midrange spike found in many other in-ears. I rarely leave home without them!”

**Sam Ryder, The Morning After**

“Our Micro Monitor 2’s guarantee we nail those supersonic highs every time!”

**Andy Pelos - Showaddywaddy**

“IEM’s have given me a greater sound quality helping me to improve my vocals. You’re able to move freely around the stage. They also lower the decibel level saving my hearing. I strongly recommend custom in-ear monitoring and Puretone Music.”
